**Part III REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a composite system including a first apparatus having convertible options to function as a printer and a reader, and an information processing apparatus to which print software and read software are installed, comprising: a signaling unit, provided in the first apparatus adapted to automatically transmit to the information processing apparatus an option selection signal indicative of a detected option when the option is changed, and launching means adapted to automatically launch either the print software or the read software installed in the information processing apparatus depending upon the option selection signal received from the signaling unit, and to terminate the print software if the print software is operating as claimed in claim 1. Similar features are claimed in claims 14, 24, 27, and 32. Therefore, claims 14, 24, 27, and 32 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
